

Lohith Regalla

PRODUCT MANAGER | AI PRODUCTS | PRODUCT STRATEGY

United States | lohithregalla123@gmail.com | [linkedin.com/in/lohithregalla](https://www.linkedin.com/in/lohithregalla) | lohith.me

Product manager and Rice University MEM student with a computer science foundation. Experience across AI assistants, product analytics, customer journeys, experimentation, and cross-functional delivery.

EXPERIENCE

Product Manager, AI Products Ve Hyderabad, India	Aug 2025 - Present
- Analyzed 1,500+ user conversations to identify failure patterns, improve context-aware assistant behavior, and turn support signals into product priorities. - Used Mixpanel, qualitative feedback, PRDs, prioritization, and sprint planning to improve successful user outcomes and reduce fallback behavior across assistant and onboarding experiences. - Supported AI marketing workflows that produced 50+ ad creative variants and helped run paid search and content experiments, including tests that improved click-through rate.	
Associate Product Manager Ambitio Bengaluru, India	Sep 2023 - Aug 2025
- Earned promotion from Product Intern to Associate Product Manager after nine months; led user research, sprint planning, backlog refinement, and coordination across product, engineering, and operations. - Redesigned university application steps and progress tracking, contributing to an approximately 9% lift in step completion during a period when completion and engagement improved by approximately 15%.	
Product Intern Samsung R&D Bengaluru, India	Internship
Supported regression testing and release-readiness decisions for Samsung Bixby voice intents, translating quality findings into clear product feedback.	

SELECTED PRODUCT WORK

Product Lead Universal Intelligence Open source	2026
- Led product direction for a framework-less protocol that standardizes Model, Tool, and Agent contracts across cloud, desktop, and browser runtimes. - Published v1.2.0 to PyPI and npm; shaped a declarative catalog with 29 local and 305 remote model entries plus MCP, A2A, OpenRouter, and Hugging Face integration paths.	

EDUCATION

Rice University Master of Engineering Management	Current
KL University BTech in Computer Science GPA 8.8/10	2020 - 2024

SKILLS

Product: Discovery, user interviews, conversation analysis, PRDs, prioritization, roadmaps, sprint planning Analytics and growth: Mixpanel, funnel analysis, experiments, GTM planning Technical: AI assistants, agent workflows, Python, APIs, integrations
